Suitable extinguishing media: Water (if possible, avoid powerful jets), foam, dry chemicals, carbon dioxide. Product itself is not flammable.

Unsuitable extinguishing media: None known.

5b Specific hazards for product:

Hazardous combustion products: Oxides of carbon, nitrogen, and other irritating gases.

5c Special protective equipment and precautions for firefighters

Special fire-fighting procedures/equipment: During a fire, irritating and toxic smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating and toxic products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.
